DRAL 5

King Mongkut's University of Technology Thonburi in Bangkok, in association with English in South-East Asia (ESEA) and the Education, Languages, Internationalisation Network (ELINET) and EMI Resource Center, National Chengchi University, Taiwan, would like to invite you to participate in the DRAL5 2024 International Conference on 5-7th September 2024.

The DRAL Conference series is renowned as one of the premier platforms for applied linguistics research. The conference provides a forum for learning about applied linguistics research, discussing key issues in the area, and making contacts with like-minded researchers with the goals of advancing the field and developing greater professionalism in applied linguistics research.

For DRAL5, in partnering with ESEA and ELINET, in addition to general applied linguistics research, we encourage the submission of papers presenting research in the areas of English use in South-East Asia, global Englishes, and English as a Medium of Instruction.
